

OMPA WISE HVAC REBATE SUMMARY
RESIDENTIAL APPLICATIONS
EFFECTIVE 1/1/2019

ELECTRIC HEAT PUMPS

Permanently-installed split, single-packaged and through-the-wall units qualify.

- **AIR-SOURCE HEAT PUMPS** (that meet minimum 16.0 SEER rating),
50/50% MATCH - \$250.00 per ton** (\$100.00 OMPA/\$100.00 City)
(payable to Building Owner or Builder of SPEC building)

- **DUAL-FUEL HEAT PUMPS** (Air-source that meet minimum 16.0 SEER rating or Geothermal that meet minimum 17.1 EER rating)
50/50% MATCH - \$250.00 per ton** (\$125.00 OMPA/\$125.00 City)
(payable to Building Owner or Builder of SPEC building)

Dual-fuel heat pump systems must be installed and maintained under the following conditions:
1) Setpoint of outdoor thermostats must not exceed 40° Fahrenheit.
2) Whenever outdoor temperatures exceed 40° Fahrenheit, the auxiliary heat source will only operate when the indoor thermostat is manually set on the emergency heat mode.

- **GEOHERMAL HEAT PUMPS** (that meet minimum 17.1 EER rating, have at least one operating Integrated Water Heater or Desuperheater for domestic water heating, and is a new installation or conversion from other type of HVAC system).
50/50% MATCH - \$800.00 per ton** (\$400.00 OMPA/\$400.00 City)
(payable to Building Owner or Builder of SPEC building)

Replacement of a geothermal heat pump with a geothermal heat pump will be rebated the same as an air-source heat pump.
50/50% MATCH - \$250.00 per ton** (\$125.00 OMPA/\$125.00 City)
(payable to Building Owner or Builder of SPEC building)

- Rebates will not be approved for locations already rebated, unless significant building additions justify additional air conditioners/heat pumps, or at least 10 years has elapsed since the last rebate was approved for that location. Rebates will not be provided if it is determined the replacement unit will cause an increase in kilowatts, rather than a decrease.

** City may rebate at any level. OMPA will match on a 50/50% basis up to the amounts shown above.

Notes:

1. OMPA's minimum standards for residential WISE rebates are generally set above or equal to Energy Star standards.
2. Customers' classification (residential, commercial, industrial or institutional) is determined by the city's rate category for the customer.
3. All rebate standards and amounts are subject to review and change as deemed necessary by the O.M.P.A. Board of Directors.

This form is available on the OMPA website (at www.ompacom under the Programs tab).
